## ANCUABE PERMITTING UPDATE

---

- ✓ **Ancuabe Mining Concession application approved by Mozambique Ministry of Mines and now passed to the Minister of Mineral Resources for final approval**
- 

Triton Minerals Limited (**Triton or the Company**) is pleased to report that it has received confirmation from the Mozambique Ministry of Mines (**INAMI**) that it has successfully completed the assessment of the Ancuabe Mining Concession application and that the application has been approved by INAMI and passed to the Minister of Mineral Resources for final approval and signing on behalf of the Mozambique government.

Managing Director, Peter Canterbury, said Ministerial approval is the final step in the mining concession application process and a critical step in enabling Triton to secure funding for the Ancuabe Graphite Project in Mozambique.

*“The Board is extremely pleased that the government of Mozambique has supported the development of this world class asset. Mozambique has a long and proud history of mining and both regional and national government bodies have been extremely supportive during the permitting process further reinforcing that Mozambique is a premier location for mining in East Africa. Importantly this progress in the Mining Concession greatly assists in the finalising of our financing discussions”*
