Developing world class projects for the graphite revolution

Moving the World Class Ancuabe Project into Development

1 July 2019
Disclaimer and competent persons statement

This presentation has been prepared by Triton Minerals Limited (Triton or the Company) and has been prepared for information purposes only. This presentation contains general and background information about the Company’s activities current as at the date of the presentation and should not be considered to be comprehensive or to comprise all the information that an investor should consider when making an investment decision. The information is provided in summary form, has not been independently verified, and should not be considered to be comprehensive or complete. The Company is not responsible for providing updated information and assumes no responsibility to do so.

This presentation has been prepared without taking into account the objectives, financial situation or needs of individuals. This presentation is not, and should not be considered as, an offer, investment advice or a recommendation to acquire the Company securities or any other financial products and neither this document nor any of its contents will form the basis of any contract or commitment. Before making an investment decision prospective investors should consider the appropriateness of the information having regard to their own objectives, financial situation and needs, and seek legal, taxation and financial advice appropriate to their jurisdiction and circumstances. The Company assumes that the recipient is capable of making its own independent assessment, without reliance on this document, of the information and any potential investment and will conduct its own investigation.

This presentation is not, and should not be considered as, an offer or an invitation to acquire securities in the Company or any other financial products and neither this document nor any of its contents will form the basis of any contract or commitment. This presentation is not a prospectus. Offers of securities in the Company will only be made in places in which, or to persons to whom it would be lawful to make such offers. This presentation must not be disclosed to any other party and does not carry any right of publication. Neither this presentation nor any of its contents may be reproduced or used for any other purpose without the prior written consent of the Company.

This presentation includes certain “forward-looking statements” and opinions. Forward-looking statements and forward-looking information are frequently characterised by words such as “plan”, “expect”, “project”, “intend”, “believe”, “forecast”, “anticipate”, “estimate” and other similar words, or statements that certain events or conditions “may”, “will” or “could” occur. Although the Company believes the expectations expressed in such statements and information are based on reasonable assumptions, there can be no assurance that such information or statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such information. Past performance is not necessarily a guide to future performance and no representation or warranty is made as to the likelihood of achievement or reasonableness of any forward looking statements or other forecast.

No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness, correctness, reliability or adequacy of any statements, estimates, opinions or other information, or to the reasonableness of any assumption or other statement, contained in the presentation (any of which may change without notice). To the maximum extent permitted by law, Triton, its professional advisers and their related bodies corporate, affiliates and each of their respective directors, officers, partners, employees, advisers and agents and any other person involved in the preparation of the presentation expressly disclaim all liability and responsibility (including, without limitation, any liability arising from fault or negligence) for any direct or indirect loss or damage which may arise or be suffered through use of or reliance on anything contained in, or omitted from, this presentation.

An investment in the Company shares is subject to investment and other known and unknown risks, some of which are beyond the control of the Company. Such risks include, but are not limited to the market price of graphite, general business, economic, competitive, political and social uncertainties; the actual results of current exploration activities and feasibility studies; assumptions in economic valuations which prove to be inaccurate; possible variations of ore grade recoveries or rates; climatic conditions; political instabilities; insurrection or war; arbitrary decisions by governmental authorities; delays in obtaining government approvals or financing or in the completion of development or construction activities.
Unless otherwise stated, all dollar values are in Australian dollars (A$). The information in this presentation remains subject to change without notice.

This presentation is not an offer of securities for sale in the United States. Any securities to be issued by the Company have not been and will not be registered under the US Securities Act of 1933, as amended (the "US Securities Act") and may not be offered or sold in the United States absent registration or an exemption from registration under the US Securities Act. No public offer of the securities is being made in the United States and the information contained herein does not constitute an offer of securities for sale in the United States. This presentation is not for distribution directly or indirectly in or into the United States or to US persons.

Distribution of this presentation may be restricted by law. Persons who come into possession of this presentation should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

**Competent Person Statements**

The information in this announcement that relates to the Definitive Feasibility Study and resource estimates for the Ancuabe Graphite Project in relation to:

- 16 May 2017 “Testwork Confirms Ancuabe Graphite is a High Quality Product”
- 14 December 2017 “Additional Mineral Resource Upgrade at Ancuabe Graphite Project with Increase in Confidence Level and Shows Further Upside to Soon to Be Released DFS”
- 15 December 2017 “Triton Delivers Robust Ancuabe Definitive Feasibility Study and Declares Maiden Ore Reserve”

The Company confirms that it is not aware of any new information or data that materially affects the information as announced on 16 May 2017, 14 December 2017 and 15 December 2017. All material assumptions and technical parameters underpinning the results and estimates continue to apply and have not materially changed.

The information in this announcement that relates to the in situ mineral resources for the Nicanda West Graphite Project in relation to:

- 17 May 2016 “Maiden Inferred Mineral Resource – Nicanda West”

The Company confirms that it is not aware of any new information or data that materially affects the information as announced on 17 May 2016. All material assumptions and technical parameters underpinning the results and estimates continue to apply and have not materially changed.

The information in this announcement that relates to the scoping study and resource estimates for the Nicanda Hill Graphite Project in relation to:

The Company confirms that it is not aware of any new information or data that materially affects the information as announced on 16 September 2016, 30 November 2015 and 26 November 2014. All material assumptions and technical parameters underpinning the results and estimates continue to apply and have not materially changed.

The information in this announcement relates to the resource estimates for Cobra Plains in relation to:

- 26 February 2014 “103Mt Graphite Resource at Cobra Plains”

The Company confirms that it is not aware of any new information or data that materially affects the information as announced on 26 February 2014. All material assumptions and technical parameters underpinning the results and estimates continue to apply and have not materially changed.
Triton Highlights

Near Term Production
- Ancuabe Q4 2020
- High Margin NPV
  - US$298m
  - IRR 37%

Development
- Mining concession granted
- Binding offtakes > 50%
- EPC contract signed

Clear Path to Financing
- Partnership with major SOE, Jinan-Hi Tech
- $8.5m equity investment plus financing support

Three World Class Long Life Assets
- Ancuabe 30+ years
- Nicanda Hill 100+ years

Mozambique
- Stable and proven region
- Supportive government

1. See Disclaimer page 2 and 3
Jinan Hi-Tech (JHT) Strategic Partnership and Funding

**Deal Summary**

- JHT is a Shandong provincial state owned enterprise involved in the building and infrastructure sectors
- JHT investment of $19.5m comprising
  - Subscription of $8.5m at 4.1 cents/share; and
  - Acquisition of Shandong Tianye Mining shares for $11m at 6.2 cents/share
  - Post Acquisition ownership 34.01%
- Transaction subject to shareholder and regulatory approvals
- Provision of financing support for total debt package for the Ancuabe Project with Chinese banks expected at concessional interest rates

**Corporate Structure (After Jinan Investment)**

1. See Competent Persons Statement Page 3
Mozambique: a great place to be developing

A stable mining jurisdiction with a supportive government

- Population 29 million, official language Portuguese
- Cabo Delgado is a proven graphite producing region
- Mozambique has a mature mining industry, with operations in Graphite, Coal, Aluminum and Gold

An Investment Location for Majors

[Map showing Mozambique's location and neighboring countries]
Triton is at the heart of the graphite region

The only producing graphite region in Africa

- Cabo Delgado is a proven graphite producing region
  - Syrah Resources, immediately adjacent to Nicanda Hill, the world’s largest graphite producing facility
  - GK AMG located immediately to the west of Ancuabe and owned by Germany’s largest graphite producer
- Ancuabe is the closest of all East African graphite projects to port
- Ancuabe is the only large scale, large flake graphite project in the region
- Ancuabe’s high purity large flake graphite commands a significant market price premium compared to smaller flake products
- Ancuabe aims to be the next East African graphite producer, producing up to 60,000 tonnes of high purity, large flake, graphite concentrate per annum\(^1\)}

1. See Disclaimer page 2 and 3
Mining Concession Granted

✓ The final approval required to progress development and a critical milestone to secure financing

High quality product

✓ High purity large flake graphite ideally suited to the EV, electric storage AND expandable market. China is running out of large flake graphite, this is Triton’s target market

Great location

✓ A proven region, closest of all East African projects to port and infrastructure

Long life project

✓ Definitive Feasibility Study¹ completed December 2017, confirmed Ancuabe is a high quality, long life project with robust economics

Binding offtake

✓ Binding offtake agreements for > 50% production

EPC contract

✓ EPC contract signed with MCC International - MCC supporting EPC linked financing at concessional interest rates

¹. See Disclaimer page 2 and 3
A simple modular design: de-risking commissioning
World’s largest Graphite-Vanadium deposit
- World’s Largest Graphite-Vanadium Deposit (1.4Bt at 11.1% TGC) for The EV Market and a Globally Significant Vanadium Deposit (4.2Mt contained V₂O₅)

World class Vanadium deposit
- The Vanadium deposit is of world class size, complementary to the graphite and may provide significant value upside to the project

Ideal for EVs and battery storage
- Nicanda Hill graphite is ideally suited to the Electric Vehicle and Battery Storage Markets

An essential product
- Graphite is a non-substitutable component for the anode. More graphite than lithium in an Li-Ion Battery!

JV partnership and finance potential
- Management are actively seeking a JV Partner and Finance to complete Feasibility Studies and advance development

“The demand for Lithium Ion batteries is unstoppable”
Roskill, a globally recognised voice in graphite
1. **Graphite is a critical commodity for the future**
   - Key component of the Lithium Ion Battery (LiB)
   - A key ingredient of the flame retardant revolution

2. **World class assets with strong returns**
   - Near term production at the flagship Ancuabe project targeted **Q4 2020**
   - Ancuabe DFS¹: NPV US$298 million, IRR 37%; Nicanda Hill: NPV US$592 million, IRR 44%
   - Nicanda Hill – the world’s largest Graphite/Vanadium deposit – Possible JV Opportunity

3. **Mozambique: the world’s best address for graphite**
   - A stable jurisdiction, pro-resource development government, proven graphite producing region
   - There are 2 operating graphite mines adjacent to Triton assets
   - Established infrastructure, close to container port

---

¹ See Disclaimer page 2 and 3
Declining China supply dominance of large flake

- China has been the major source of global graphite supply
- **Chinese** production of **large flake** graphite threatened by lower grades, higher costs, diminishing flake size and environmental concerns
- Mozambique is supportive of China’s One Belt One Road initiative
- China’s suppliers increasingly looking to import high purity, large flake graphite – **this is Ancuabe’s target market**

**China’s supply issues present a significant opportunity for Ancuabe’s large flake, high purity graphite**
Structural shortage looming: Demand and Supply

New markets for EV and FRBM driving forecast demand above existing and new sources of supply

Planned capacity and projects in development will not be sufficient to meet forecast demand

Source: Benchmark Minerals Intelligence
Value Proposition

World class assets
- High quality graphite from a proven graphite region with excellent infrastructure and stable mining jurisdiction

Near term production and robust economics
- Ancuabe DFS\(^1\) delivers highly attractive project. Nicanda Hill provides JV opportunity for the battery market and exposure to vanadium market.
- Nicanda West a future expandable graphite project

Offtake secured for > 50% of Ancuabe production
- Offtake secured for more than 50% of anticipated Ancuabe production with two major graphite producers

Graphite market transformation underway
- Demand driven by EV and FRBM revolutions with traditional sources of supply diminishing

Clear Path to Ancuabe Project Funding
- The strategic partnership with Jinan Hi Tech provides the cornerstone equity component and importantly a clear path to funding the development of the Ancuabe Project

“Triton is wonderfully positioned to be a player in the fastest developing markets globally”

1. See Disclaimer page 2 and 3
